 **Marathon Opportunity**

This series is based on the true story of Noele “Nolly” Gordon, one of the most famous personalities on British television in the 1960s and 1970s, whose surprising dismissal at the peak of her fame made headline news across the country. *Nolly*, starring Helena Bonham Carter, is a bold and entertaining portrait of a forgotten icon who refused to play by the rules.

Origins

Pitch your personal story now!

Cascade PBS seeks personal stories that reflect the diverse roots of our region. From mid-February to April 17, the *Origins* docuseries grant program invites documentary pitches from filmmakers who are part of the communities they'll illuminate — whether around ancestry, culture, identity or values. The winner will receive a \$40,000 grant to produce their vision in a five-part series and work with the Cascade PBS editorial team, who will mentor them throughout production and post for a year-end delivery. This is a unique opportunity to amplify underrepresented voices and highlight perspectives that contribute to the cultural fabric of the Pacific Northwest.

Women's History Month traces back over a century, originating from the first International Women's Day in 1911. In 1978, Santa Rosa, California celebrated "Women's History Week," which grew to a national scale in 1980 when President Carter declared the week of March 8 as National Women's History Week. Finally in 1987, Congress established March as Women's History Month.

The Invisible Shield

SERIES PREMIERE

TUE Mar 26 | 10p

+ Marathon Opportunity

This sweeping four-part series provides an unprecedented examination of the public health system fundamental to modern life. It reveals the profoundly transformative influence of interdisciplinary coalitions across medicine, science, engineering, advocacy and governance whose collaborative spirit fuels the invisible shield safeguarding communal welfare.

POV

unseen

MON Mar 18 | 11p

As a blind, undocumented immigrant, Pedro faces adversity to obtain his college degree, become a social worker, and support his family. Through experimental cinematography and sound, *unseen* reimagines the accessibility of cinema, while exploring the intersections of immigration, disability and mental health.

AMERICAN EXPERIENCE

The Cancer Detectives **W**
TUE Mar 26 | 9p

Screenings slashed cervical cancer mortality by over 60% thanks to three pioneering figures: Dr. George Papanicolaou, a Greek immigrant with a single-minded pursuit; Hashime Murayama, a noted Japanese American illustrator released from WWII internment to work on the project; and Dr. Helen Dickens, a groundbreaking Black surgeon who overcame deep distrust between the Black community and the medical establishment.
