Please join us for a spirited and informative discussion with three seasoned experts in values based estate planning. This panel discussion will help you discover how your estate plan can support:

- Your family's core values
- Essential opportunities to launch heirs into productive lives
- Flourishing, responsible and resilient heirs
- Family harmony and cross generational engagement
- A strong and vibrant community
- Redirecting tax dollars to causes you care about
- How your family chooses to make a positive and enduring impact on the lives of others

An estate plan that reflects your values and aspirations contributes to the deep satisfaction and peace of mind about the legacy you plan to leave and how you will be remembered.

Leave10 aims to build better communities and transform as many people as possible into philanthropists by educating, inspiring and encouraging individuals to aspire to leave at least 10% of their estate to charity.
